PHILIPPINE SOCIETY OF ANIMAL NUTRITIONISTS

39th ANNUAL CONVENTION

Fueling Progress: Shaping Animal Nutrition for a Competitive and Sustainable Future

6 OCTOBER 2026

Grand Ballroom, Okada Manila

From Roadmaps to Investments:

Shaping the Future of Philippine Livestock and Poultry Sector

MICHAEL J. GARCIA

Assistant Secretary for Swine and Poultry
Department of Agriculture

39th Philippine Society of Animal Nutrionists (PHILSAN) Annual Convention

06 October 2026 I Okada Hotel, Manila

PHILIPPINE AGRICULTURE: THE STATE OF LIVESTOCK INDUSTRY

Livestock sector contributes about **14% of total agricultural production value** (PSA, 2025)

Agriculture accounts for **8% of GDP**(PSA, 2025)

₱247 billion current value of livestock production (PSA, 2025)

Annual volume of livestock production was estimated at **2 million metric tons** (PSA, 2025)

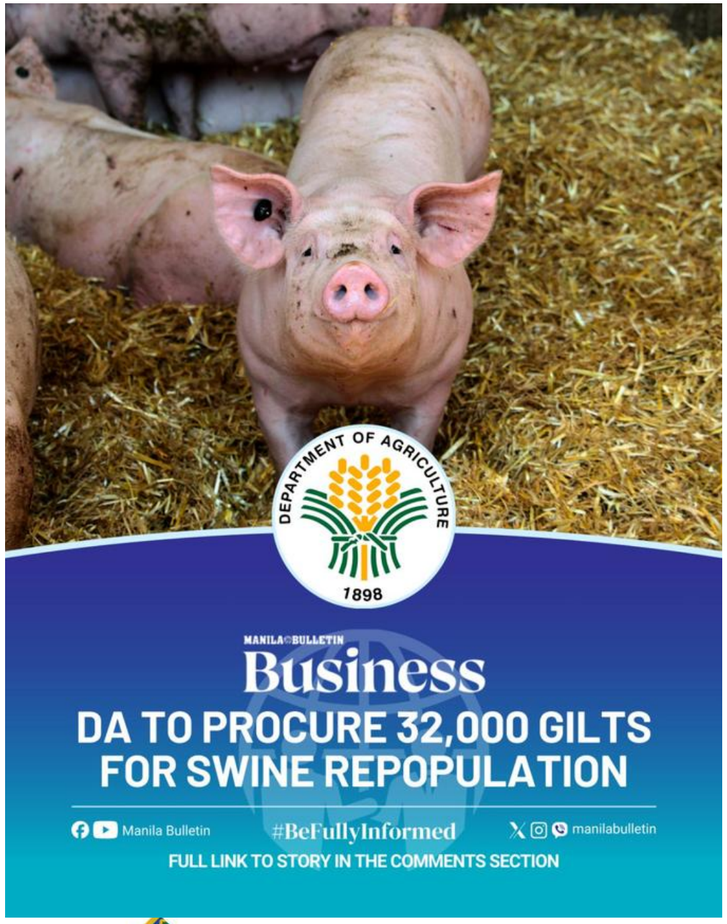

Challenges confronting the Livestock Sector

- Low productivity and efficiency in livestock production
- Limited access to quality feed, vaccines, veterinary services, and breeding stocks
- Climate vulnerability impacting livestock and fodder supply
- Post-harvest losses and inadequate cold chain infrastructure for animal products
- Inequitable distribution of income in livestock value chains

Key Government Agencies Shaping the Philippine Livestock Industry

Farm Production and Industry Support

- Support is being provided to different types of livestock enterprises, including nucleus farms, multiplier farms, and production farms, through the provision of stocks, feeds, machinery, and technical assistance.
- These interventions are designed to help improve local production capacity, reduce production costs, and enhance farm efficiency.

Animal Health, Food Safety, and Biosecurity

- Recognizing the importance of disease prevention and food safety, the government continues to strengthen animal health services and biosecurity measures.
- Particular focus is being given to the prevention and management of major diseases such as African Swine Fever (ASF) and Avian Influenza, which continue to affect industry stability and investment confidence.

Feed, Forage, and Nutrition Development

- Initiatives are being undertaken to enhance feed availability and feeding efficiency through access to quality feeds and feeding systems, development of pasture and forage areas, and promotion of forage production technologies, and introduction of alternative and locally available feed resources

Research, Innovation, and Institutional Partnerships

SFEED: Forage Pelleted Feeds for Goats

SFEED is a premium, forage-based pelleted feed made from legume species. Using innovative Legume Strata Technology, SFEED is formulated specifically for goats to provide a highly nutritious, balanced, and affordable diet. By utilizing sustainable feed resources, this technology directly addresses seasonal feed scarcity while creating lucrative new revenue streams for farmers who produce and sell it.

- The government is strengthening collaboration with state universities, research institutions, and industry stakeholders to support innovation and technology development in the livestock sector.

Farm Mechanization and Infrastructure Support

- Various machinery and equipment are also being provided to farmer groups, cooperatives, and local government units nationwide.

Capacity Building and Technology Promotion

- Farmer education and technical capability development remain key priorities of the government.
- Current efforts include skills training on improved livestock and poultry management, biosecurity and animal health trainings, farm business and enterprise management training, and technical extension and advisory services.

REPUBLIC ACT NO. 12308 (AIDCA): A NEW PATHWAY FOR ANIMAL INDUSTRY DEVELOPMENT

**SIGNED INTO LAW IN SEPTEMBER 25, 2025;
EFFECTIVE OCTOBER 28, 2025**

Promote sustainable and secure animal production systems

Improvement of animal health services, biosecurity measures, and climate-resilient practices.

Strengthen the competitiveness and resilience of the sector

Help local producers meet domestic demand and compete in broader markets.

SALIENT PROVISIONS: RA 12308 - ANIMAL INDUSTRY DEVELOPMENT AND COMPETITIVENESS ACT (AIDCA)

OBJECTIVES	SALIENT PROVISIONS
STRENGTHENING THE ANIMAL INDUSTRY	• **Reorganizing and Strengthening the Bureau of Animal Industry** • **National Animal Industry Development Plan**
PROVIDING ADEQUATE FUNDING	• **Animal Competitiveness Enhancement Fund (AnCEF) (P20,000,000,000.00)**
DIGITALIZATION AND ACCESS TO INFORMATION	• **Animal Management Information System (AMIS)** • **Livestock Registry System (LRS)**

STRENGTHENING THE BUREAU OF ANIMAL INDUSTRY, HARMONIZING ANIMAL INDUSTRY REGULATORY AGENCIES, AND ENHANCING THEIR PROGRAMS

Bureau of Animal Industry (BAI)

Animal Development Welfare Office (ADWO)

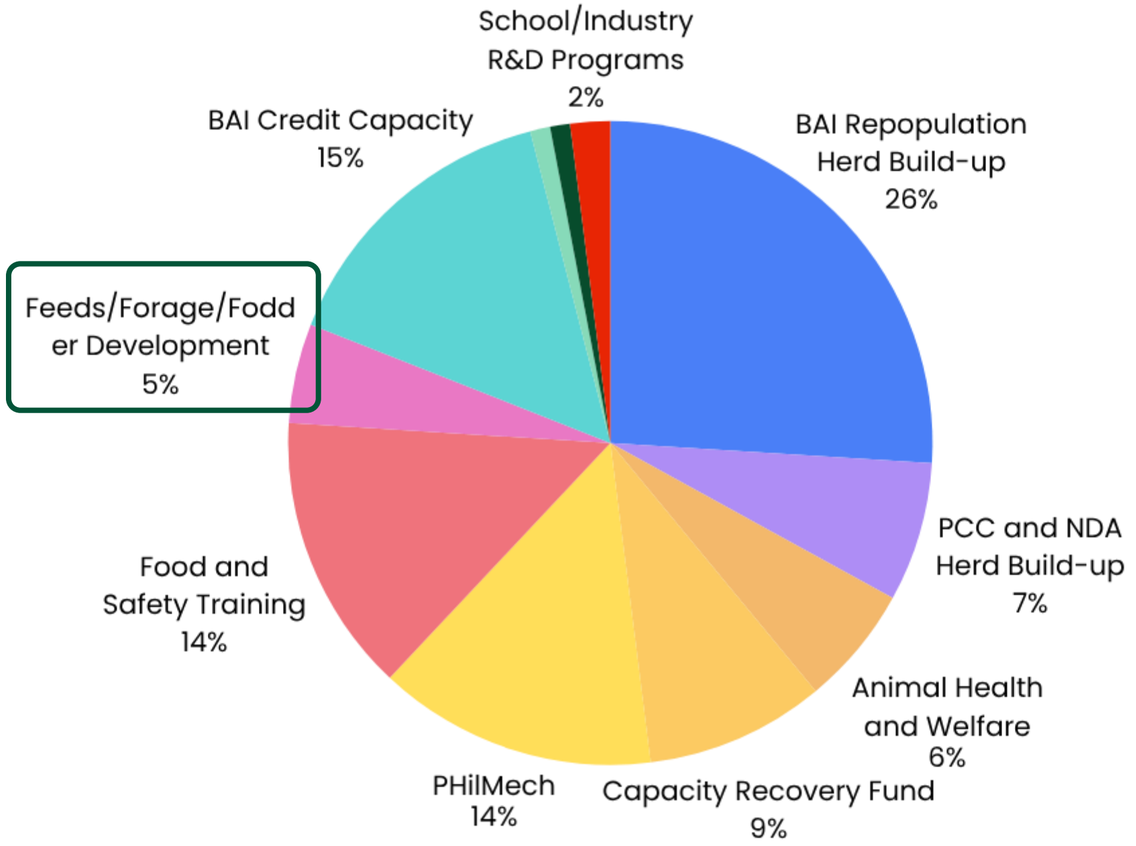

Animal Regulation and Enforcement Office (AREO)

NATIONAL ANIMAL INDUSTRY DEVELOPMENT PLAN

- 10-year development plan
- Overarching strategic and policy framework for the entire animal industry, guiding the implementation of programs and projects.
- Guides the program implementation of livestock agencies to strengthen the delivery of support services to stakeholders.

Animal Competitiveness Enhancement Fund (ANCEF)

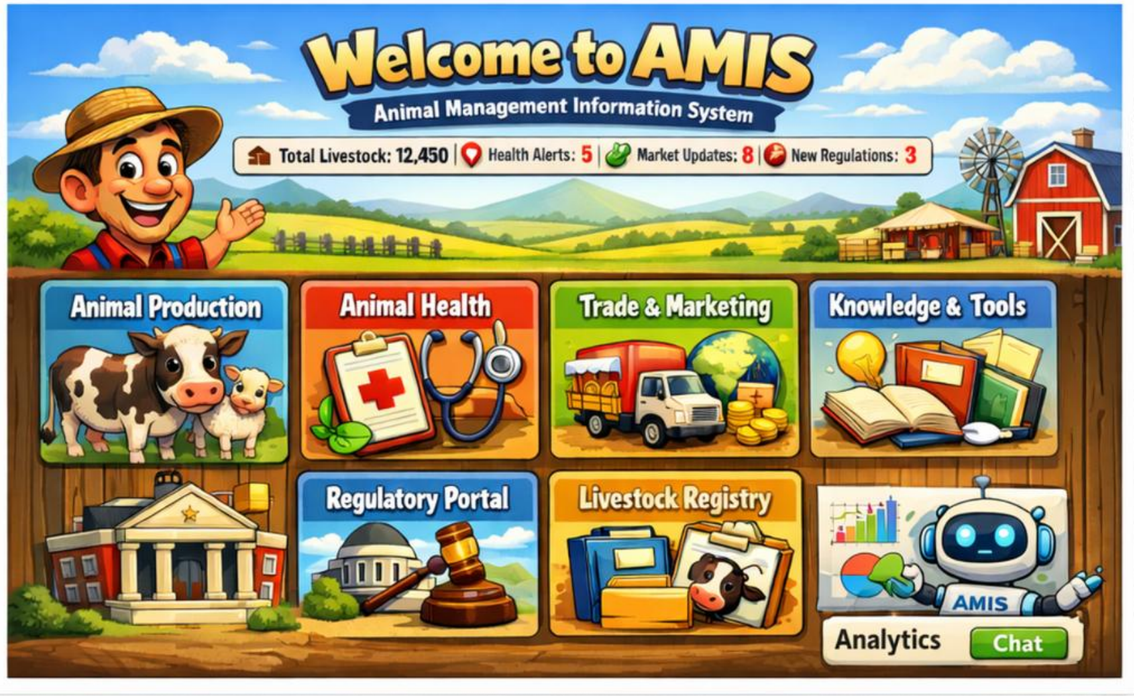

- AnCEF shall consist of an annual appropriation of Twenty billion pesos (P20,000,000,000.00) from tariff collections from livestock, poultry, and dairy following the effectivity of this Act and ten (10) years thereafter.

- This ₱20-billion yearly fund is **dedicated to development and innovation infrastructure development, modern production systems, disease control programs, research and development, capacity building for farmers and institutions**.

Animal Management Information System (AMIS)

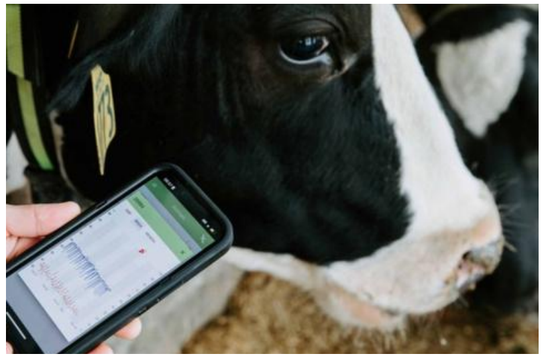

- The Animal Management Information System (AMIS) will serve as the central repository of all animal industry information.
- To provide timely, accurate, and responsive data from municipal to national levels.
- To compile essential and comprehensive data to support planning, monitoring, and decision-making in the animal industry.

Livestock Registry System (LRS)

Republic of the Philippines
Department of Agriculture
BUREAU OF ANIMAL INDUSTRY

SAMPLE

- Establishment of the Livestock Registry System (LRS) as the official master list of eligible AnCEF beneficiaries.
- Harmonization with the DA Registry System for Basic Sectors in Agriculture (RSBSA) to ensure interoperability, avoid duplication of records, and maintain a unified and validated database of agricultural beneficiaries.
- The LRS shall serve as the primary reference for identifying, validating, and managing AnCEF program beneficiaries, including updates on eligibility status and beneficiary profiling to support efficient program implementation and targeting.

Envisioning the Future of Livestock and Poultry Sector

Repopulation and Industry Recovery

- Implement repopulation programs to restore livestock populations
- Support herd build-up initiatives to return to pre-ASF (African Swine Fever) levels
- Strengthen disease prevention and biosecurity measures

Strengthening Digitalization Efforts

- Adoption of digital tools for livestock monitoring and farm management
- Establishment of traceability systems for improved transparency and food safety
- Integration of smart agriculture technologies in the livestock sector

Future-Ready Feed Industry

- Promote climate-resilient feed and forage production systems
- Diversify and strengthen local sources of feed ingredients
- Improve feed efficiency and animal nutrition to reduce production losses

Envisioning the Future of Livestock and Poultry Sector

Expansion of Support to Smallholders

- Increase funding and financial assistance opportunities for backyard farmers and smallholders
- Improve access to credit, insurance, and subsidies
- Support inclusive programs that strengthen rural livelihoods

Youth and Marginalized Sector Integration

- Encourage youth participation in livestock farming and agribusiness
- Provide opportunities for women and marginalized communities
- Foster inclusive development in the livestock sector

Thank you!

Office of the Undersecretary for Livestock, Office of the Director Building, Visayas Avenue, Barangay Vasra, Quezon City.
